**Renascent Hinduism**-Dittakavi Subrahmanya Sarma 1966

**Religious Education in the Secondary School**-James D. Holt 2014-12-08 Religious Education in the Secondary School is a comprehensive, straightforward introduction to the effective teaching of Religious Education in the secondary classroom. Acknowledging the highly valuable yet often misunderstood contribution of RE, this text shows how the subject can be taught in a way that explores the impact of religion on the lives of people and society, engaging pupils and preparing them to become individuals who celebrate and respect diversity. It is illustrated throughout with ideas for teaching at different key stages and offers expert chapters introducing you to both the World Religions and the core aspects of effective teaching and learning. With an emphasis on developing an understanding of the importance - and different ways - of meeting the learning needs of all pupils, key chapters cover: -Understanding different pedagogies of RE -Spirituality and RE -Tips on effective planning and assessment -An approach to teaching across the Key Stages -Core subject knowledge in Buddhism, Christianity, Hinduism, Islam, Judaism and Sikhism Written by an experienced teacher, teacher educator and examiner, Religious Education in the Secondary School is a succinct compendium and has a real classroom applicability offering all trainee RE teachers, as well as those teaching Religious Education as specialists or non-specialists a wealth of support and inspiration.

**Beliefs, Values & Traditions**-Ann Lovelace 1997 This text is designed for GCSE short courses in religious education.

**The Voice of India**- 1888

These / by religion books exemplify the themes and expand them from the points of view of the major religions.

**A Handbook of Hinduism**-Newcastle upon Tyne (England). Education Committee. Hinduism Working Party 1980

**Religion in the Classroom**-Jennifer Hauver James 2014-11-13 Dilemmas surrounding the role for religious beliefs and experiences permeate the school lives of teachers and teacher educators. Inspired by the need for teachers and students to more fully understand such dilemmas, this book examines the relationship between religion and teaching/learning in a democratic society. Written for pre-service and in-service teachers, it will engage readers in thinking about how their own religious backgrounds affect their teaching; how students' religious backgrounds influence their learning; how common experiences of school and classroom life privilege some religions at the expense of others; and how students can better understand diverse religious beliefs and interact with people from other backgrounds. The focus is specifically on classroom issues related to religious understandings and experiences of teachers and students, and the implications of those for developing democratic citizens. Grounded in both research and personal experience, each chapter provides thought-provoking evidence related to the role of religion in schools and society and asks readers to consider the consequences of varied ways of responding to the dilemmas posed.

**Leader's Guide for Primary Source Readings in World Religions**-Patrick Tiernan 2009 Studying world religions is an intellectual challenge coupled with an emotional endeavor to grow in sensitivity to the mystery of human nature. Teaching world religions requires an openness to new languages, cultures and beliefs. By exploring the history of dialogue, students can begin to appreciate the unique contributions of each tradition without forgoing their own. Primary Source Readings in World Religionsintroduces your students to foundational texts of many of the world's main religions. This leader's guide brings you the expertise of a veteran world religions teacher who not only provides helpful insight into the readings but also lends the wisdom gained from years of guiding young people in deepening their understanding of different faith traditions. The leader's guideprovides you with continuity and variety. Each chapter includes these elements: summaries of the primary source readings from the student book an activity to help you guide students through each of the readings additional activities to further explore the issues suggestions for prayer related to the chapter topic action ideas related to the chapter topic

**Journal of the Asiatic Society of Bangladesh**- 1984

**Teaching Religion and Science**-Tonie Stolberg 2010-09-13 Can religion and science co-exist successfully in the classroom? How can you encourage an environment where differing views are treated positively? How do you help students apply their understanding of religious beliefs and scientific theory to a range of ultimate questions? Teaching Religion and Science aims to give RE teachers a pedagogical foundation for the teaching of religion and science topics, and for the teaching of religion as a whole. It will help you to have confidence to include what might appear to be challenging or controversial topics in your lessons, and provides guidance on how religion and science themes can be effectively addressed using appropriate classroom teaching methods. Containing a wealth of practical advice to help you turn pedagogical theory into practice effortlessly, it helps you understand your own attitudes to the subject, as well as those of your students, to ensure successful teaching. Essential guidance includes: activities to help you apply pedagogic practices to your own particular classroom situation advice to help minimise potential difficulties whilst tackling controversial issues links to a wide range of resources and advice on further reading comprehensive lesson plans for ages 11-16 and 16-19. Designed to be a resource for all training and practising R.E. teachers, Teaching Religion and Science offers much needed support for successfully integrating the teaching of religion and science in your classroom.

**Hindu Beliefs and Worship**-Walter Hazen 2003-09-01 This packet introduces your students to the oldest organized religion in the world: Hinduism. They will learn about Hindu gods, principles, worship, and more. In addition to valuable historical and practical information, this packet provides review questions, questions for discussion, key word lists, and an answer key. These features facilitate student assimilation of the fundamentals of a religion practiced by an estimated 781 million people around the globe. Whether your objective is a comprehensive study of Hinduism or a simple overview, this packet affords you the opportunity to easily accomplish either one. You will be delighted to observe your students' growing understanding of the rich culture and history of a religion believed to date back to prehistoric times.

**Introduction to the Study of Religion**-Hillary P. Rodrigues 2008-08-20 Why do people study religion? How have they studied it in the past? How do we study religion today? Is the academic study of religion the same as religious education? These and many other questions are addressed in this engaging introduction to the discipline of religious studies, written by two experienced university teachers. The authors have crafted this book to familiarize novice students with key concepts and terminology in the study of religion. More advanced students will find a varied array of theoretical perspectives and methodological approaches to the field. Topics include: definitions of religion perspectives in the study and teaching of religion how religion began to be studied: traditional perspectives - philosophical and theological how people experience religion: perspectives in the study of religious consciousness and perception - phenomenological and psychological studying religion within communities: Social and cultural perspectives - anthropological, sociological, political and economic judging religion: critical perspectives -feminist approaches, the interaction of popular literature and religion contextual perspectives - historical and comparative. The book encourages students to think critically about the theories and methods presented. Students will find arguments for the strengths and limitations of these approaches, understand connections among religious studies and other intellectual movements, and develop their own ideas of how they might want to go about the study of religion. Summary boxes, a timeline, a glossary and other pedagogic aids help students grasp key concepts, along with a companion website at www.sastor.com.

**Hinduism, a Religion Or Social Agenda**-R. K. Ankodia 2008

**Encyclopædia of Religion and Ethics**-James Hastings 1925

**Modern Indian Education**-T. N. Siqueira 1967

**Hinduism and Modernity**-David Smith 2008-04-15 This examination of Hinduism in the context of modernity will be of interest to all students of Hinduism, as well as to those interested in the sociology and history of religion. Shows Hinduism to be a highly dynamic world-view which challenges western notions of modernity. Considers a broad range of topics including women, the caste system, the self, divinities and gurus. Contains up-to-date discussions of modern Hindu culture and beliefs.

**The Mahabharata as it Was, Is, and Ever Shall be**-Promatha Nath Mullick 1934

**Introducing Hinduism**-Hillary Rodrigues 2006 Introducing Hinduism is the ideal starting point for students wishing to undertake a comprehensive study of this fascinating religion. This lively introduction explores the complexities of Hinduism, including its social structures, especially its caste system, its rituals and many scriptures, its vast mythology and varieties of deities, and its religious philosophies. Hillary Rodrigues, an experienced teacher of the Hindu tradition, emphasises the importance of Hindu rituals and practice, subjects of particular interest in contemporary scholarship. Illustrated throughout, the book also includes text boxes, summary charts, a glossary and a list of further reading to aid students' understanding and revision. The accompanying website to this book can be found at <http://www.routledge.com/textbooks/0415392691>.

**Hinduism**-Axel Michaels 2004 Hinduism is currently followed by one-fifth of humankind. Far from a monolithic theistic tradition, the religion comprises thousands of gods, a complex caste system, and hundreds of languages and dialects. Such internal plurality inspires vastly ranging rites and practices amongst Hinduism's hundreds of millions of adherents. It is therefore not surprising that scholars have been hesitant to define universal Hindu beliefs and practices. In this book, Axel Michaels breaks this trend. He examines the traditions, beliefs, and rituals Hindus hold in common through the lens of what he deems its "identificatory habitus," a cohesive force that binds Hindu religions together and fortifies them against foreign influences. Thus, in his analysis, Michaels not only locates Hinduism's profoundly differentiating qualities, but also provides the framework for an analysis of its social and religious coherence. Michaels blends his insightful arguments and probing questions with introductions to major historical epochs, ample textual sources as well as detailed analyses of major life-cycle rituals, the caste system, forms of spiritualism, devotionalism, ritualism, and heroism. Along the way he points out that Hinduism has endured and repeatedly resisted the missionary zeal and universalist claims of Christians, Muslims, and Buddhists. He also contrasts traditional Hinduism with the religions of the West, "where the self is preferred to the not-self, and where freedom in the world is more important than liberation from the world." Engaging and accessible, this book will appeal to laypersons and scholars alike as the most comprehensive introduction to Hinduism yet published. Not only is Hinduism refreshingly new in its methodological approach, but it also presents a broad range of meticulous scholarship in a clear, readable style, integrating Indology, religious studies, philosophy, anthropological theory and fieldwork, and sweeping analyses of Hindu texts.

**Critical Conversations about Religion**-Sachi Edwards 2016-10-01 Interfaith initiatives are increasingly prevalent on college and university campuses around the country. In large part, this trend responds both to ongoing religious violence throughout the world and to increasing religious tension in the United States. As such, these interfaith initiatives often attempt to bolster interfaith collaboration and increase awareness of different religious cultures, identities, beliefs, and traditions. In this book, Edwards reviews the various goals and processes associated with the interfaith movement, and offers both warnings and suggestions for those who are interested in pursuing an approach to interfaith dialogue that is oriented toward social justice. In doing so, this book fills a critical gap in academic literature surrounding the impact of religious identity and interfaith relations on pedagogy, educational experiences, and campus climates. Through three descriptive case studies set in a large public university in the United States, Edwards explores the use of Intergroup Dialogue as a pedagogical model for interfaith dialogue. While the goal of this pedagogy is to increase student understanding of privilege, oppression, and social injustice pertaining to religious identity, the cases in this book demonstrate how and why social justice oriented interfaith dialogue can be easily derailed and, if so, may potentially have harmful implications for religious minorities. Accordingly, Edwards offers five necessary conditions for assuring that social justice oriented interfaith dialogue (which Intergroup Dialogue is intended to be) succeeds. By focusing on the unique perspectives of four particular student participants (all of whom have religious identities outside of the three dominant Abrahamic religions) Edwards also highlights the experiences of those from religious identity groups that are the most overlooked and under?represented in the discourse on interfaith dialogue.

**Religion in Schools**-Robert Murray Thomas 2006 Examines controversies surrounding religion in schools around the world.

**Hinduism in Natal**-Alleyn Diesel 1993 Describes the features of Hinduism in one of the world's largest Hindu communities outside India - South Africa. This book examines the beliefs and practices common to all Hindus, and those aspects which distinguish the main groups. It also looks at the teachings and doctrines, and aims to provide an understanding of the practice of the religion.

**World Religions for Healthcare Professionals**-Siroj SSorajjakool 2017-02-10 Religious beliefs and customs can significantly shape patients' and professionals' attitudes toward, and expectations of, healthcare, as well as their wishes and personal boundaries regarding such daily matters as dress, diet, prayer and touch. Undoubtedly, the sensitivity with which clinicians communicate with patients and make decisions regarding appropriate medical intervention can be greatly increased by an understanding of religious as well as other forms of cultural diversity. This second edition of a popular and established text offers healthcare students and professionals a clear and concise overview of health beliefs and practices in world religions, including Hinduism, Buddhism, Jainism, Confucianism, Taoism, Sikhism, Islam, Judaism, and Christianity. Adopting a consistent structure, each chapter considers the demographic profile of the community, the religion's historical development, and key beliefs and practices, including views regarding health and sickness, death, and dying. Each chapter also ends with a useful checklist of advice on what to do and what to avoid, along with recommendations for further reading, both online and in print form. The book's clear and consistent style ensures that readers with little background knowledge can find the information they need and assimilate it easily. A brand new chapter on applications and a set of new case studies illustrating issues in clinical practice enhance this wide-ranging book's value to students and practitioners alike.
